Hayward Flow Control Now Available Through Westlund/Emco Water Solutions

Westlund / Emco Water Solutions a division of Emco Corporation and Hayward Flow Control are proud to announce their cooperation to supply end-users, OEMs, fabricators, and contractors with Hayward industrial thermoplastic products and solutions throughout Canada. The national Hayward program with Westlund will include, but not limited to, the following industry leading product lines:

- Manual and Actuated Ball and Butterfly Valves
- Electric and Pneumatic Actuation
- Complete Range of thermoplastic Check Valves
- Y Pattern and Basket Strainers
- Industrial Bag and Cartridge Filters, as well, as Filter Media
- Flow Control and ChemFeed Valves
- Instrumentation for Level and Flow Measurement

Westlund carries a customized regional inventory of these products, with an additional base availability & support from Hayward in Oakville, Ontario.

For more than 50 years, Hayward Flow Control's thermoplastic flow control products and solutions have proven to excel in the critical environments and applications they serve. Hayward products are widely used in the following market segments and applications worldwide:

- Chemical Processing & Handling
- Food and Beverage
- Mining, Smelting & Mineral Extraction
- Aquatics – Aquarium Life Support Systems & Aquaculture
- Marine including military ships
- Power and Co-Generation
- Clean Water Technology – Reverse Osmosis, De-salination and Industrial Water Treatment
- Oil & Gas, Petrochemical, Oil Sands
- Paper & Pulp
- General Processing and OEM Manufacturing

Made of leading industrial grade thermoplastic materials, Hayward products deliver superior corrosion and chemical resistance, as well as insuring purity of media, versus traditional metal based flow control products. All Hayward Flow Control products carry an industry leading, **full two-year warranty**, as well as **NSF61-G** Listing for key product lines. All Hayward CPVC products are **ABS (American Bureau of Shipping)** approved.

WESTLUND/EMCO Water Solutions is the leader in providing “inside the fence supply solutions” to the In-Plant water and wastewater market *nationally*. We offer the largest scope of construction material of any supplier; nurturing and sustaining successful partnerships and value-add opportunities throughout the construction process. Our pledge is to establish lasting relationships with our customers by exceeding their expectations and gaining their trust through exceptional performance by every member of our team
